

Hospitality and Tourism Journals in TROY Library Databases

The Library of Troy University provides access to thousands of journals via its subscriptions to online databases.

The following list of publications is intended to make students and faculty aware of certain curriculum-specific resources.

KEY TO LISTINGS:

Journal Title

Name of database or databases through which it can be accessed.

For the vast majority of journals listed, the full text of the articles within the journal is available online within the database itself.

For several journals (highly recommended journals for which the text is not provided online), this list indicates in which database the journal is indexed. Even when the text is not provided in the database, the listing for an article typically includes the title of the article and a brief summary of its findings, as well as information about its location, e.g., title of the journal, volume, issue, and page numbers. You may request that copies of individual articles (ones that are not available in full text in a database) be sent to you by using the Library's Interlibrary Loan service.
